

TEAM TRAINING FOR THE MASSES

TEACHING THE PARTICIPANTS:

30 minute structured teamwork module included in the first 30 minutes of a 90 minute face to face component of the **RESUS4KIDS—Paediatric Life Support for Healthcare Rescuers** program. Non-expert trainers able to deliver the module using videos, tennis ball game and facilitated feedback.

Dramatised Videos used to teach:

- ▶ Impact of negative language
- ▶ Situational awareness
- ▶ Allocation and acceptance of roles
- ▶ Clear, concise communication
- ▶ Closed loop communication
- ▶ Communicating with patients
- ▶ Client centred care
- ▶ Impact of task focus on situational awareness

Tennis ball game used to teach:

- ▶ Importance of using names
- ▶ Task allocation
- ▶ Establishing team leader role
- ▶ Active participation of team members
- ▶ Communication
- ▶ Pre-assigned roles
- ▶ Familiarity with tasks and colleagues and effect on teamwork

RESUS4KIDS

**A multi-modal approach to
Teach the Participants
and Train the Trainers**

TRAINING THE TRAINERS:

Trainers are provided with additional knowledge, skills and support to enable them to teach participants teamwork, communication and leadership.

90 minute Train the Trainer course

- ▶ Provides trainers with additional information and skills to assist them to educate participants on teamwork and communication
- ▶ Covers human factors and Crisis Resource Management (CRM)
- ▶ Walks trainers through principles of CRM and explains in greater detail the importance of leadership, communication, resource utilisation, situational awareness, and anticipating and planning

Train the Trainer e-Learning refresher

- ▶ Revises instructors knowledge on how to deliver the RESUS4KIDS program, including the teamwork and communication module
- ▶ Recap the teamwork objectives
- ▶ How to deal with negative comments
- ▶ How to manage difficult participants
- ▶ Tips for running the ball game

Instructor Development Day

- ▶ Designed for trainers who have facilitated at least three RESUS4KIDS sessions
- ▶ Opportunity for trainers to learn from others how to teach teamwork and communication
- ▶ High fidelity simulation using ALS scenarios performed so trainers can experience the need for leadership, teamwork and effective communication during a resuscitation

RESUS4KIDS would like to acknowledge the significant contributions of the Phase 1 team, the NSW Paediatric Clinical Nurse Consultants and Educators, the NSW Child Health Network Coordinators and the NSW Ministry of Health as well as the current team of RESUS4KIDS educators and instructors who continue to promote this project.
